Joint Commission Mission

The mission of Joint Commission is enabling and affirming the highest standards of healthcare quality and patient safety for all.

Disclaimers

Joint Commission Resources (JCR) educational programs and publications support, but are separate from, the accreditation activities of Joint Commission. Attendees at Joint Commission Resources educational programs and purchasers of JCR publications receive no special consideration or treatment in, or confidential information about, the accreditation process. The inclusion of an organization name, product, or service in a JCR publication should not be construed as an endorsement of such organization, product, or service, nor is failure to include an organization name, product, or service to be construed as disapproval.

This publication is designed to provide accurate and authoritative information regarding the subject matter covered. Every attempt has been made to ensure accuracy at the time of publication; however, please note that laws, regulations, and standards are subject to change. Please also note that some of the examples in this publication are specific to the laws and regulations of the locality of the facility. The information and examples in this publication are provided with the understanding that the publisher is not engaged in providing medical, legal, or other professional advice. If any such assistance is desired, the services of a competent professional person should be sought.

All example policies, procedures, and plans are offered only as reference material for development of your own similar policies, procedures, and/or plans. You should never copy an example policy, procedure, or plan to use as your own. They must be adjusted to match your unique organization, its particular population-based issues, and applicable laws and regulations, so use examples as reference only. The content contained herein is provided "AS-IS" and Joint Commission, or its affiliates, makes no warranty or representation of any kind related to the content whether expressed, statutory, implied, or otherwise, including but not limited to, the suitability of the example policies, procedures, and/or plans for any particular purpose. The use of these example policies, procedures, and/or plans will not directly impact your accreditation or certification and is for your internal use only related to patient safety or health care quality improvement efforts. Joint Commission assumes no responsibility or obligation with respect to the content, data, or information used to customize the policies, procedures, and/or plans. You assume all responsibilities with respect to any decisions made as a result of using these example policies, procedures, and/or plans, and for the content, accuracy, and review of such content.

Table of Contents

- Some items in the Table of Contents are indicated as “updated.” This means that these policies and procedures (P&Ps) have been updated since the previous edition of *PolicySource*. These changes reflect updates in Joint Commission standards and elements of performance for ambulatory care and office-based surgery accreditation.
- Those items with a paper clip icon  are not P&Ps themselves but supplementary materials or attachments for a particular P&P. Not every P&P has such attachments, but that does not prohibit someone using *PolicySource* to create their own ancillary materials for any of their own P&Ps.

APPLICABILITY

This policy is applicable to ambulatory care organizations and office-based surgery practices and correlates to Joint Commission standards that require written documentation. See [Applicability Grid](#) for applicable services.

POLICY STATEMENT

All individuals will conduct themselves in a manner consistent with acceptable behavior. There is zero tolerance of behaviors that undermine a culture of safety, and all allegations are investigated and appropriate actions taken.

PURPOSE

To set expectations for behavior that fosters a culture of safety to create a work environment that encourages respectful, constructive relationships among health care professionals, patients, and staff.

SCOPE

Applies to all staff.

DEFINITIONS

Acceptable behavior – Behavior that enables others to perform their duties and fulfill their responsibilities effectively and that results in respectful and constructive communication. Examples include but are not limited to the following:

- Communicating in a calm, respectful, and professional manner
- Addressing disagreements using facts presented in a calm, professional manner, without personal attacks
- Responding to requests and concerns in a timely and appropriate manner
- Interacting with others in a manner that respects the individual's culture and beliefs
- Meeting expectations included in the conditions of employment
- Working within the established chain of command, both departmentally and organizationwide
- Adhering to the established dress code and grooming standards
- Willingness to perform duties requested by the department or organization

Behaviors that undermine a culture of safety – Conduct by staff working in the organization that intimidates others to the extent that quality and safety could be compromised. These behaviors, as

determined by the organization, may be verbal or nonverbal, may involve the use of rude language, may be threatening, or may involve physical contact.

RESPONSIBILITIES

The staff supervisor is responsible for determining the appropriate level of immediate corrective action.

The Human Resources (HR) department is responsible for the following:

- Approving decisions regarding suspension or termination
- Providing education and training on this policy

The staff supervisor and HR department are responsible for the following:

- Investigating allegations of disruptive and/or inappropriate behavior
- Determining an appropriate plan of action

Organization leadership is responsible for the following:

- Protecting those who report behavior that undermines a culture of safety from retaliatory action
- Overseeing this policy, including analyzing trends in behavior that undermines a culture of safety and identifying opportunities for improvement

All employees are responsible for the following:

- Reporting behavior that undermines a culture of safety to an immediate supervisor
- Understanding and applying this code of conduct

PROCEDURES

1. Inform staff members and licensed practitioners about this policy as part of their initial onboarding, orientation, and training.
2. Provide information on this policy to outside agencies or organizations that provide contract staff, students, or others who provide care, treatment, and services on behalf of the organization.
3. Share information about this policy with any individuals providing care, treatment, and services on behalf of the organization at the time the policy takes effect, when it is updated, and annually thereafter.*
4. Report any events of behavior that undermines a culture of safety to the immediate supervisor using the standardized Incident Report.
5. Include in the Incident Report the following details:
 - Name of the person reporting the event
 - Witnessed behavior and/or comments
 - Date and time of the event
 - Facts associated with the event
 - Names of person(s) involved in the event
 - Names of person(s) who witnessed the event
 - Consequences of the event
 - Immediate actions taken to remedy the situation*
6. Investigate the event as soon as possible by interviewing the individual demonstrating the behavior, the individual affected by the behavior, and any witnesses to the behavior. This is done by the supervisor as soon as possible, no later than seven days after the report is filed.*
7. Determine the appropriate level of corrective action to be taken, if any.

8. Determine whether the individual's behavior is disruptive to normal business and/or is hazardous to patients, visitors, or others. If so, do the following:
 - Immediately suspend the individual.
 - Remove the individual from organization property.*
9. Document the corrective actions taken in the Corrective Action Report.
10. Provide counseling to the involved parties on completion of the investigation.
11. Develop and document a plan for monitoring progress to change behavior.
12. Engage in established progressive disciplinary actions if the individual's behavior fails to improve.
