Q&A w/ Faculty	

Learning Objectives

At the conclusion of this program, participants will be able to:

1. Compare and contrast your organization's current survey process for accreditation compliance to The Joint Commission's Environment of Care (EC) and Life Safety (LS) chapters as presented in this program
2. Implement The Joint Commission requirements for managing compliance with the EC elements within your organization
3. Review the core and ambulatory healthcare occupancy specific requirements of the Life Safety Chapter
4. Analyze the Joint Commission requirements for managing compliance with the Life Safety Code
5. Review facility scenarios for life safety standards applicability
