

# Table of Contents

<b>Foreword by Tushar Gupta, FAIA</b> .....	v	Designing for Infection Prevention and Control.....	68
<b>Introduction</b> .....	vii	Infection Prevention and Control with	
<b>Table of Terms</b> .....	xiv	Hand Hygiene .....	68
<b>Foundations: Standards and Regulations</b> .....	1	Infection Prevention and Control with Airflow .....	69
Joint Commission and Joint Commission International		Infection Prevention and Control with HVAC	
Standards.....	2	Engineering .....	70
The Facility Guidelines Institute .....	4	Infection Prevention and Control in Water Supply	
Other Relevant Standards and Regulations .....	5	Systems.....	70
<b>Chapter 1: Planning</b> .....	7	Infection Prevention and Control and Waste Flow.....	72
Types of Planning .....	8	Infection Prevention and Control and Reprocessing ....	72
The Strategic Planning Process .....	10	Infection Prevention and Control in Finishes	
Master Facility Planning .....	11	for Furniture .....	72
Case Study: Operational Planning In Ambulatory Care .....	12	Infection Prevention and Control and Floor Finishes ....	73
Detailed Functional and Space Programming .....	20	Infection Prevention and Control and Wall Materials....	73
Organizing the Planning Process/Logistics .....	24	Infection Prevention and Control and Ceilings.....	73
Case Study: Collaboration and Co-Location .....	32	Designing for Mechanical, Electrical, and Plumbing	
Exit Note .....	35	Infrastructures .....	73
Change Management and RPI®.....	37	Fire/Smoke Dampers .....	73
Design Outcome Plan™ .....	40	Air Changes .....	74
Value Engineering.....	44	Room Pressurization .....	74
<b>Chapter 2: Design</b> .....	48	Humidity Control .....	74
Predesign .....	49	Redundancies.....	74
Schematic Design .....	51	Emergency Power.....	75
Design Development .....	54	Fuel Storage.....	75
Construction Documents Preparation.....	59	Designing for Security, Efficiency, and Ergonomics .....	76
Case Study: Rural Health .....	62	Designing for Security.....	77
Exit Note .....	65	Designing for Patient Flow.....	78
Designing for Fire Safety and Infection Prevention		Designing for Emergency Management.....	79
and Control.....	66	Designing for Human Factors .....	81
Designing for Life Safety.....	67	Designing for Worker Safety .....	81
Life Safety Units of Defense .....	67	Designing for Fall Prevention .....	82
The <i>Life Safety Code</i> ® and Other Building Features.....	68	Designing for Patients of Size.....	82
		Evidence-Based Design.....	83
		Designing for Technology Safety .....	84
		Designing for Facilities in Developing Countries .....	86
		Case Study: Cultural Design for a Women’s and	
		Children’s Hospital.....	89
		Responsible Design.....	93
		Patient-Centered Design .....	93

Sustainable Design .....	94	<b>Chapter 4: Commissioning</b> .....	134
Technology-Supportive Design .....	97	The Commissioning Process .....	135
Adaptive Design .....	97	The Commissioning Team .....	136
Modular Design.....	98	Standards and Regulations for Commissioning.....	137
Designing for Resiliency.....	98	Facility Commissioning .....	137
Case Study: Designing for Resiliency .....	100	Commissioning Budget .....	140
Specialty Design .....	103	Benefits of Commissioning.....	140
Designing for Laboratories .....	103	Looking Forward.....	140
Designing for Pharmacies .....	105	Case Study: Smoke Control Recommissioning.....	141
Designing for Hybrid Operating Rooms .....	106	Exit Note .....	143
Case Study: Hybrid Operating Rooms.....	108		
<b>Chapter 3: Construction</b> .....	111	<b>Chapter 5: Occupancy and Postoccupancy</b> .....	145
Construction Bidding or Negotiating.....	112	Facility Orientation.....	146
Construction Risk Management.....	112	Simulations .....	146
Interim Life Safety Measures (ILSMs) .....	115	Clinical Operations Commissioning.....	147
Construction Activities .....	117	Move-In .....	149
Project Team Kickoff Meeting.....	117	Postoccupancy Evaluation .....	150
Construction Worker Education .....	118	Survey Considerations.....	150
Implementing Safety Measures During		Moving Day.....	152
Construction.....	118		
Cleaning Up.....	120		
Case Study: OR Renovation and Expansion .....	121		
Exit Note .....	124		
Construction Safety Considerations .....	125		
Construction Risks and Measures .....	129
