

Robin Voss

RN, MHA, TNCC-I
Field Director, Disease Specific Care
The Joint Commission

Robin Voss has been a nurse for over 38 years, with most of those years in Stroke and Neurosciences. She is a Past President for the NC Stroke Association. Robin was the Vice President of Stroke and Neurosciences for a large healthcare system in Winston Salem, NC with a Primary Stroke Program, which became the first non-teaching hospital to obtain Comprehensive Stroke Certification from TJC. Robin had been a Stroke nurse reviewer for TJC for the past four year and is currently a Field Director for Disease Specific Care for the Joint Commission.

Robin is an accomplished healthcare administrator with extensive experience in leadership, strategic planning and programmatic development and a passion for professional development and lifelong learning. Consistently recognized by senior leaders for building strong teams and developing relationships across diverse boundaries. An accomplished recruiter, coach and mentor with exceptional skills in product line development and management, physician recruitment, community outreach and hospital relations. She is equally comfortable analyzing market and competitive situations and devising revenue solutions or creating effective relationships with multiple stakeholders across a variety of organizational settings.
